

Trend Micro™ PC-cillin™

Internet Security Pro 2009

Smart Security for Total Online Safety

If you shop or bank online, you need the maximum protection against identity thieves and other malicious threats. Get smart, real-time security with Trend Micro Internet Security Pro, so you can enjoy total online safety when you shop, bank, and browse whether you are at home or away.

UNIQUE PC-CILLIN FEATURES

Keystroke Encryption (Transaction Protector)

Protects you from keystroke recording programs that steal your personal information based on the keys you press. It scrambles the identity of your keystrokes using Local SSL technology.

First Visitor Protection

Inspects webpage content in real-time – so you're protected even if you're the first visitor to a threatening site.

Remote File Lock

Encrypts the folders or files you choose via Trend Secure, so an unauthorised user cannot make use of them. Helps safeguard victims of computer theft.

Wi-Fi Advisor (Transaction Protector)

Checks the credibility and legitimacy of Hotspots and Wi-Fi networks.

System Tuner (PC Tune-Up)

Cleans up your registry, temp files and startup behavior.

Trend Micro Australia has partnered with Carbonite, a leading provider of online backup to consumers worldwide. Every copy of Trend Micro PC-cillin Internet Security Pro 2009 includes up to 60GB of online backup. This will offer greater convenience and security and will help keep information safe against non-virus related issues.

OTHER FEATURES

Enhanced Behavior Monitoring/ Proactive Intrusion Blocking

A set of policies prevents unauthorised changes from occurring in the first place.

Worry-free Click

Prevents access to unsafe webpages from links in emails. Makes URLs in emails unclickable if URL is a known "bad site."

Detect and Block Image Spam

Stronger than ever protection from all forms of spam.

Customisable Security Warnings

Set how often you want to be warned about security issues.

Advanced Security Activity Reports

Displays visual graphs detailing past security activities along with in-depth summary reports.

Antivirus Security

Detects and removes viruses and the latest threats from your emails, Internet downloads, removable media and PCs. Automatic updates immunise your security system against the newest virus outbreaks.

Smart Phone Protection

Trend Micro Mobile Security protects your smart phone against viruses and other threats.

Spyware Protection

Blocks and removes spyware, adware, grayware, and root kits that hide deep inside your computer.

Personal Firewall

Intercepts hackers and network viruses trying to attack your computer and home network.

Fraud Defence

Protects you from online phishing scams designed to steal credit card and bank account numbers. Configures easily and notifies you of the latest Web-site risk.

Wireless Network Monitoring

Safeguards against unauthorised users invading your wireless home network.

Home Network Control

Manages, configures and updates security for every PC on your network, with an easy-to-use management console.
