

## Anti-Spyware 3.0

### Active Defense Against Spyware, Adware and Other Privacy Threats

#### FEATURE LIST

- Spyware / Grayware Detection and Removal
- Trend Micro CWShredder™— **EXCLUSIVE**
- Restore Utility
- Active Real-Time Protection
- Spy Sleuth - reveals the spyware source
- Advanced History Cleaning
- Fast Scanning Engine

**Trend Micro Anti-Spyware** is a comprehensive spyware detection and removal solution. It offers excellent spyware protection for personal computers (PCs).

Spyware, a category of often malicious software that can monitor your online activity, can be installed without obtaining your full consent, resulting in security vulnerabilities that may compromise your personal data and affect PC performance. Trend Micro Anti-Spyware, with its robust detection features, helps to identify

spyware intrusions before they inflict great damage. Industry-pioneering removal technology is also employed to help wipe out lingering traces of spyware from your PC.

In addition to protection against spyware attacks, Trend Micro Anti-Spyware aids in stopping adware pop-ups, browser hijackers, keyloggers and other grayware. Malware threats and nuisances are monitored, leaving you more time to enjoy your PC and attend to personal tasks.

## Spyware Detection and Removal

Trend Micro Anti-Spyware quickly scans your PC for known spyware threats against a regularly updated database of potential threats. Should spyware be discovered, easy-to-follow tools help to remove the spyware safely and without interruption to Internet connection.

## Real-Time Active Defense Protection

Trend Micro Anti-Spyware's unique Active Defense monitors your PC for spyware-like tactics, alerting you when spyware is found running in memory or is attempting to install itself. If spyware is discovered, Trend Micro Anti-Spyware gives you the option of allowing or denying access to the suspect program.

## One-Click Privacy Cleanup

Trend Micro Anti-Spyware can also help protect your privacy by erasing browser and PC history, temporary Internet files, cookies and other "trackware" files. Trend Micro Anti-Spyware can schedule both history cleanings and supports on-demand cleanings.

## Trend Micro CWShredder™

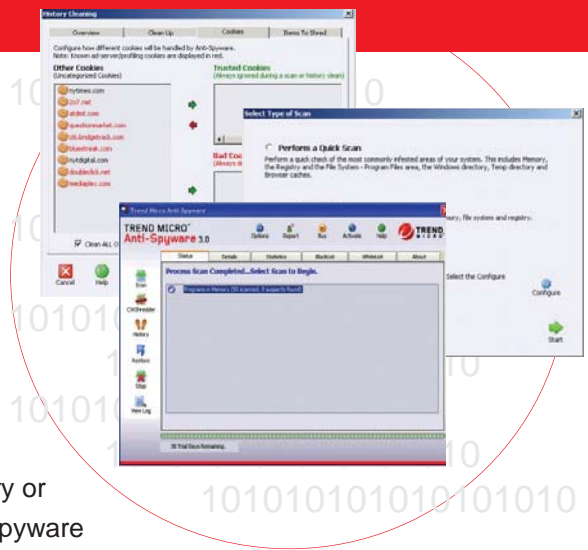

Trend Micro Anti-Spyware exclusively includes CWShredder, widely regarded as the only effective tool to remove the many variants of the CoolWebSearch browser hijack.

## Restore Utility

Trend Micro Anti-Spyware protects your PC while removing spyware. Unlike other spyware removal programs, Trend Micro Anti-Spyware creates a backup of the files it removes, allowing for quick restoration if a useful or authorized program has inadvertently been removed.

## Automatic Frequent Updates

Trend Micro Anti-Spyware is updated on a regular and frequent basis to keep you protected against the latest privacy threats. Backed by TrendLabs<sup>SM</sup> our Threat Research team uses a variety of spyware collection techniques to ensure immediate protection.
